### **DETAILED ACTION**

1. This action is in response to applicant's response filed on 10/9/2008.
2. Claims 1-20 are presented for examination.
3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-10 drawn to a system for configuring a server to send and receive queries, classified in class 707, subclass 3.
  - II. Claims 11-12 and 16-17 drawn to a method for specifying a network address for retrieving information about the matched service, classified in class 709, subclass 245.
  - III. Claims 13-15 and 18-20 drawn to a system for sending a request from a client and receiving a response from a server, classified in class 709, subclass 203.
4. The inventions are distinct, each from the other because of the following reasons: Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, Invention I has separate utility such as in a method lacking the system for specifying a network address for retrieving information about the matched service; and sending a request from a client and receiving a response from a server. See MPEP § 806.05(d).

Art Unit: 2454

5. These inventions are distinct for the reasons given above, and the search required for each Group is different and not co-extensive for examination purpose. For example, the searches for the two inventions would not be co-extensive because these groups would require different searches on PTO's classification class and subclass as following:

- (a) the Group I search (Claims 1-10) would require use of search class 707, subclass 3 (not require for the inventions II and III).
- (b) the Group II search (Claims 11-12 and 16-17) would require use of search class 709, subclass 245 (not require for the inventions I and III).
- (c) the Group III search (Claims 13-15 and 18-20) would require use of search class 709, subclass 203 (not require for the inventions I and II).

6. The declaration filed on 10/9/2008 under 37 CFR 1.131 has been considered but the examiner found that restriction requirement is necessary. Therefore, the previous Office action dated 7/7/08 has been withdrawn.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jungwon Chang whose telephone number is 571-272-3960. The examiner can normally be reached on 6:30-2:00 (Monday-Friday).
